Profile

Passionate about continuous learning and eager to contribute to innovative projects. Committed to collaborating with experienced developers and contributing to effective team dynamics. Equipped with strong problem-solving abilities and a proactive approach to tackling new challenges, driven by a desire to expand technical expertise and deliver exceptional results

Projects

2025/02 – 2025/04	MyCab - Developed a full-stack ride-hailing platform using MongoDB, Express.js, React.js, and Node.js, integrating Stripe for secure payments. - Implemented Google Maps API for real-time route mapping, live location updates, and navigation for both users and drivers. - Enabled real-time ride tracking using Socket.io ↗ (WebSockets), ensuring seamless communication and enhanced user experience
2024/08 – 2024/11	HR Management System - Developed a robust HR Management System using the MERN stack (MongoDB, Express.js, React, and Node.js). - Designed and integrated key functionalities for admin and employee portals, streamlining event and leave management.
2023/10 – 2023/12	E-Commerce Website - Applied advanced responsive design techniques to ensure seamless functionality and optimal user experience across a wide range of devices. - Harnessed the power of Node.js to develop a robust and scalable server-side architecture, ensuring efficient and reliable performance. - Integrated Stripe for secure and smooth payment processing, instilling user confidence in online transactions

Education

2021 – 2025 Durg, India	B.Tech in Computer Science and Engineering <i>Bhilai Institute of Technology Durg</i>
2021 Durg, India	XII - 87% <i>Delhi Public School Durg</i>
